INTRODUCTION

Over 7 years of commercial experience

I have over seven years of commercial web development experience. I am seeking to advance my career even further, by working hard and continuing to expand my knowledge.

I am very passionate about web development, my strongest experience is with the Wordpress and the Woocommerce platform. Additionally, during my studies I was awarded with the Ede and Ravenscroft award for Academic Excellence. I might just have the drive and determination that you are looking for!

MY IDEAL ROLE

Small, Friendly, Quiet Team

I'm looking to work within a small friendly quiet team, ideally for an employer that understands or has some kind of involvement with web development. I am also considering whether or not I should reestablish myself as a friendly and professional freelancer and would also be willing to accept such work in PHP.

MAIN EXPERIENCE

Company	Role	Experience	Year
Visario, Warwick www.visario.co.uk	Ecommerce Developer, Server Administrator, Network Engineer.	During my time at Visario I have worked on many different web development projects. I have used frameworks such as OpenCart, Magento and Woocommerce to power both small and large businesses.	2014 - 2016
Freelance Web Developer	Marketing Software Developer and Ecommerce Website Developer	I've worked on many different projects as a Freelance Web Developer.	2012 - 2014
Henley College Coventry	Student	I Developed a social video website in classic ASP. Wrote a backgammon tournament tracker.	2009 - 2010 2010 - 2011 2013 - 2014
Adaptive Business Solutions	Magento Developer	I was on a fixed term 6 month contract to develop a jewellery store using Magento.	2009 - 2010
Volunteer	Web Developer	(vdeohplus.com) - (how-rare.com) - (silverbroom.co.uk) - (fb-digital.co.uk)	2003 - 2008

MAIN SKILLS

Skills	Experience
Server Administrator, Apache 2, Cpanel, WHM	I planned and then successfully migrated all mail and website accounts from a www.heartinternet.uk reseller account to a self managed dedicated server. I configured Apache, Cpanel and WHM and branded both with the company logos at Visario.
Network Engineer, Cisco Packet Tracer, Network Security	I designed a new internal network by ordering a compatible switch, and this increased 3D rendering times for other departments and improved data transfer between office PCs and the internal File Server. I also improved network security and enabled cloud based backups.
Wordpress, Woocommerce, Magento, Opencart, Bootstrap, PHP, HTML, CSS, JavaScript, jQuery, Gulp, Grunt, Bower, MySQL, PHPMyAdmin, XML, BrowserSync, Composer, Python, MongoDB, NoSQL	<p>I have developed all of the front end and back end code for (including bespoke plugins and responsive views). (http://www.plantpac.net), (http://www.visario.co.uk), (http://www.favelakidsclothing.co.uk), (http://www.navimed.co.uk), (http://furzefarmestate.co.uk), (http://www.gardner-cnc.co.uk), (http://www.macpac.co.uk), (http://www.allsquarecleaning.co.uk), (http://partnerframe.biz), (http://www.tecterran.com), (http://www.totaltransformations.co.uk) (An international corporate website, non-disclosure) - (A large online water filter jug retailer (Created using Magento, non-disclosure)) - (A bespoke B2B system with a advanced analytics in the backend and an appliance configurator, non-disclosure)).</p> <p>I have worked on or developed solely myself: (A task management system, non-disclosure), (An image analysis program (http://www.ryanormrod.com/software/starcount) to count stars on astrophotography), (A video CMS system (https://github.com/bentech/PHPDirector), (http://www.shower-klenz.com), (http://www.arrowheadrockdrill.co.uk), (http://www.elitecarsbanbury.com), (http://www.aspod.co.uk), (http://www.monkeyweb-design.co.uk), (System to find split tickets using web scraping https://github.com/ryanormrod/Split-Train-Ticket-Finder), (A bespoke script to list music within a directory https://github.com/ryanormrod/Music-Directory-Lister). And more...</p>
Google Search Console, Google Analytics, Google Tag Manager	I configured goals and reports to help clients track successes (goal completions) and failures (exits) across their websites.
